RE: File No. M-2008-017 Derr Pit – Summary for December 4th Quarter Water Level Reporting

Dear Ms. Gagnon,

We are submitting this letter and summary for the December 4th Quarter Water Level Reporting on behalf of W.W. Clyde & Co.

We are providing this summary letter to discuss and provide information in regard to the December off-site an on-site monitor wells and provide the dewatering volumes pumped for November.

During the month of November a total of 0.0 acre-feet was pumped and discharged into the on-site recharge ponds within the Derr Pit.

AgPro was able to get all the normal monthly readings/measurements on all of the off-site wells for the December readings. The on-site monitor wells saw increases in the elevation of the water levels. The water level elevations in the monitor wells on the Phase 1-4 portion of the pit went up on the south side by 2.13 feet and up by 0.79 feet on the north side. The water level elevations in the monitor wells on the upper terrace of the permit area increased by 1.38 feet for MW-14, increased by 1.05 feet for MW-15, increased by 1.17 feet for MW-16, increased 1.30 feet for MW-17, and increased by 0.92 feet for MW-18.

Please let us know if you have any questions or concerns.

Sincerely,

J.C. York, P.E.
J&T Consulting, Inc.

December 30, 2024

Mr. Dave Bliss
40738 Poudre Canyon
Bellevue, CO 80512

Dear Mr. Bliss:

AGPROfessionals' staff have been monitoring groundwater elevations on behalf of W.W. Clyde & Co. at your property. We perform this monitoring once a quarter. Attached is the elevation we recorded on December 19, 2024.

Identifier	Depth to Water from Ground Surface (ft.)
Bliss Irr	46.88

Has the 2-foot trigger point for two consecutive months been met?

- ☐ Yes
☒ No

Please find the attached table and graph representing the data collected to this date. Please do not hesitate to contact me regarding these activities.

Sincerely,

Maria Irianni Renno, PhD.
Sr. Environmental Engineer
970-702-8946

Well Designation	Bliss Irr

September 12, 2024	47.18	No
December 19, 2024	46.88	No

Notes:

- 1) Graph displays Depth to Groundwater (lower depth to groundwater reading means higher water table elevation).
- 2) Trigger point is described in Settlement Agreement.
- 3) Since Historical Data was not established until September 2020, a year-to-date running average was used to compute historical average. As of September 2020, the historical average is computed as described in Settlement Agreement.

HARRELL #1 DOM

Notes:

- 1) Graph displays Depth to Groundwater (lower depth to groundwater reading means higher water table elevation).
- 2) Trigger point is described in Settlement Agreement.
- 3) Since Historical Data was not established until September 2020, a year-to-date running average was used to compute historical average. As of September 2020, the historical average is computed as described in Settlement Agreement.

HARRELL #2 IRR

- Notes:
- 1) Graph displays Depth to Groundwater (lower depth to groundwater reading means higher water table elevation).
 - 2) Trigger point is described in Settlement Agreement.
 - 3) Since Historical Data was not established until September 2020, a year-to-date running average was used to compute historical average. As of September 2020, the historical average is computed as described in Settlement Agreement.

December 30, 2024

Ms. Dixie Hoffner
30300 WCR 57
Gill, CO 80624

Dear Ms. Hoffner:

AGPROfessionals' staff have been monitoring groundwater elevations on behalf of W.W. Clyde & Co. at your property. We perform this monitoring each quarter. Attached are the elevations we recorded on December 19, 2024.

Identifier	Depth to Water from Ground Surface (ft.)
Hoffner #1 Dom	43.24
Hoffner #2 Irr	48.01

Has the 2-foot trigger point for two consecutive months been met?

☐ Yes

☒ No

Please find the attached tables and graphs representing the data collected to this date. Please do not hesitate to contact me regarding these activities.

Sincerely,

Maria Irianni Renno, PhD.

GLOBAL ASSET RECOVERY DAVIS IRR

Notes:

- 1) Graph displays Depth to Groundwater (lower depth to groundwater reading means higher water table elevation).
- 2) Trigger point is described in Settlement Agreement.
- 3) Since Historical Data was not established until September 2020, a year-to-date running average was used to compute historical average. As of September 2020, the historical average is computed as described in Settlement Agreement.
