SUBJECT: LINE CAMP PIT M-2001-001 AM-2 Request for extension to decision date

Dear Mr. Jesse:

I am requesting an extension of up to 30 days from the current date of Tuesday, 16 April 2025 for consideration of the amendment, to allow time to finish responding to the last adequacy letter and give you the time to review the response.

REASONS FOR EXTENSION:

A continued combination of having to respond to other State agencies on air and water quality issues related to other operations of Smith's Materials and other clients has been time-consuming and we've been unable to devote the time needed to provide proper responses.

Thank you for your recent inspection of the facility. We will also provide some additional responses to the items addressed in that inspection and our email correspondence.

Respectfully submitted,

A handwritten signature in blue ink, appearing to read 'Nathan A. Barton'. The signature is fluid and cursive, with a long horizontal stroke at the end.

Nathan A. Barton, CE, PE, DEE
Environmental and Permitting Compliance Engineer
