**Re: Additional Information Required, Annual Groundwater Level Data for 2024-2025,  
Parsons Mine, Permit No. M-2009-082**

Dear Ms. Mikulas:

On April 17, 2025, the Division of Reclamation, Mining and Safety (Division/DRMS) received your Annual Groundwater Level Data for 2024-2025 from the Parsons Mine. After review of the submission the Division has additional items that need to be addressed or clarified.

1. Please provide a monitoring well location map that shows the locations of all the monitoring wells relative to the permit boundary.
2. Please provide a line graph that shows the water levels for all monitoring wells since November 2022.
3. Please provide an explanation for the rising water levels in MW-9 and decreasing water levels in MW-12 since November 2022.
4. The groundwater level data was submitted at the same time as the Annual Report, Map, and Fee. A review of the map submitted is incorrectly titled Windsor East. Please update and resubmit the map with the correct title.

Please respond to these items by **May 18, 2025**. The Division reserves the right to further supplement this document with additional items and details as necessary.

If you need additional information or have any questions, please contact me by email at [patrick.lennberg@state.co.us](mailto:patrick.lennberg@state.co.us).

Sincerely,

Patrick Lennberg  
Environmental Protection Specialist
