**Re: Technical Revision TR146 Approval, Cresson Project, Permit No. M-1980-244**

Dear Bjorn Meyer:

On April 21, 2025, the Division of Reclamation, Mining and Safety approved the Technical Revision TR146 application submitted to the Division on January 23, 2025, addressing the following:

*VLF2 Phase 3 Stage B Subgrade and Leak Detection Record of Construction Report*

The terms of TR146 approved by the DRMS are hereby incorporated into Permit No. M-1980-244. All other conditions and requirements of Permit No. M-1980-244 remain in full force and effect. With this approval, the construction of VLF2 Phase 3 Stage B Subgrade and Leak Detection Record of Construction Report was determined to be in compliance with the approved specifications. The Certification is accepted by the DRMS pursuant to Rule 7.3.2 of the Mineral Rules and Regulations of The Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations.

The Division has reviewed the change associated with TR140 for impacts to the financial warranty and has determined that this change does not require an increase to the current reclamation liability.

If you have any questions or need further information, please contact me at (303) 903-4456.

Sincerely,

Elliott R. Russell  
Environmental Protection Specialist
