**Re: Letter of Monitoring Compliance, Annual Groundwater Data for 2024-2025,
Section 20 Gravel Mine, Permit No. M-2022-001**

Dear Mr. Regan:

On April 9, 2025, the Division of Reclamation, Mining and Safety (Division/DRMS) received the 2024-2025 Groundwater Monitoring Data for the Riverview Resource, permit no. M-2022-001. Upon review of the responses to the Division's request for additional information the Division has no further comments at this time on the submitted data. It is noted that the Operator is collecting analytical samples from additional monitoring wells and at a higher frequency than was approved during the original permit. The samples are being collected to support a future Technical Revision to the site Groundwater Monitoring Plan as discussed during review and approval of TR-1.

Please note that monthly monitoring well-level data and quarterly analytical data are to be submitted with the annual report each year in accordance with the currently approved Groundwater Monitoring Plan.

If you need additional information or have any questions, please contact me by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
