Hunter,

After more discussion with David Zehner on the Snake River Pit and it's condition, we feel that the seeding from the last attempt appears to be coming to some degree. We have decided not to do any tillage in fear of interrupting the grass that may still be coming. We would still like to overseed this spring with an approved seed mix and with the help from the perimeter fence that is going up now, we have high hopes that we will be successful in getting this to fill in.

We have also discussed that we may overseed once again this fall to increase our chances if we feel it to be necessary.

Please notice the seed mix that was attached to the same email as this letter and the changes we have made.

Please review and we will wait for your response on putting this mix down and furthering our efforts.

If there is a need to discuss any items in more detail please reach out to David or I.

Thank you for now.

Peroulis Bros. Snake River Pit

Precision Excavating / David Zehner

Species	Cultivar	Application Rate		Seeds/Ac	Seeds/Sq Ft	% of Seeds per Sq Ft	Acres --	PLS Lbs. Needed
		Seeds/lb	PLS lbs/acre				Project Acres	
Western Wheatgrass	VNS	110,000	4.00	440,000	10.10	20.34%	25	100
Thickspike Wheatgrass	VNS	156,000	1.50	234,000	5.37	10.82%	25	37.5
Green Needlegrass	Lodorm	181,000	1.00	181,000	4.16	8.37%	25	25
Needle & Thread	-	115,000	1.50	172,500	3.96	7.98%	25	37.5
Sheep Fescue	VNS	620,000	1.00	620,000	14.23	28.67%	25	25
Cicer Milkvetch	VNS	122,000	2.00	244,000	5.60	11.28%	25	50
Sandberg - Big Bluegrass	Sherman	882,000	0.15	132,300	3.04	6.12%	25	3.75
Canby's Bluegrass	Canbar	926,000	0.15	138,900	3.19	6.42%	25	3.75
Total			11.30		49.65	100.00%		282.5

Additionally we would add Triticale seed at a seed rate of 15 Lbs./ acre to act as a nurse crop for the permanent seed mix.
