

Summit Brick and Tile Co.  
Permit #P-2003-008  
April 29, 2025

Badger Property  
2025 Annual Report  
Supplemental Notes

Additional Notes:

112 MLRB Permit: It is the intention of Summit Brick to submit an application for a 112c MLRB Permit for the Badger property in order to mine clay. The current anticipated timeline for this application is within the next 18 months if market conditions do not drastically change in that period of time.

Once the application process is completed for the 112c MLRB permit, Summit Brick will begin the process of getting the disturbed land for Permit P-2003-008 released or incorporated into the new 112c MLRB permit.
