

Summit Brick and Tile Co.  
Permit #M-1985-203  
April 29, 2025

Edmundson Clay Mine  
2025 Annual Report  
Supplemental Notes

Item #3:

A site visit was completed in the spring and it was determined that additional seeding was necessary as vegetation is still sparse in the majority of the southern disturbed area due to a lack of precipitation in the area in the last several years. The site was re-seeded on April 16, 2025 with the approved seed mix and rate. The seeding method was broadcast seeding.

No noxious weeds were found on site at the time of seeding.
