Surety Release Request (SL-1)
Full/Final Release Request

Dear Ty Stogsdill:

On April 30, 2025 the Division of Reclamation, Mining and Safety considered your request for a financial warranty release. The Division found that reclamation had not been accomplished at this site and denied this request.

Overall, the grading of the site appears to be adequate and adheres to the 3:1 slope requirement of the rangeland post-mining land use. Vegetation appears to be well established, with the significant exception of a large area outside of the stream bed which was stripped to act as a product stockpile. At the time of inspection this area has not been reseeded. With the exception of the mentioned area, the site appears to be trending towards complete cover and being generally in-line with the agricultural character of the surrounding land. The streambed appears to be reclaimed to an adequate degree and disturbance is minimal. Unfortunately given the significant area of bare dirt the Division denies the request to release this site at this time. Once the problem area has been adequately reseeded and evidence of consistent growth is shown the site may be reevaluated. Please review the related inspection report for the specific reasons for the financial warranty release denial.

In addition, if you have past due annual fees or unpaid civil penalties, your surety cannot be reduced or released.

In accordance with Rule 1.4.11, any person who can demonstrate that they are directly and adversely affected or aggrieved by an action of the Office, may petition for a hearing before the Board on such action within thirty (30) days of the date of the Office decision, if the decision was a denial, without a hearing. Such petitions for a hearing shall state how the petitioner is directly and adversely affected or aggrieved by the Office's decision, and how the petitioner's interests are entitled to protection under the Act. The petitioner shall list and explain any issue the petitioner believes should be considered by the Board at the hearing on the matter. The petition for a hearing shall specify the application or file number assigned by the Office.
