Rifle Gravel Pit #1, Permit No. M-2021-052, Inspection Problem Resolved

Dear Mr. Carpenter:

On January 28th, 2025 the Division of Reclamation, Mining and Safety (Division) conducted an inspection of the above referenced site. Signs and markers were cited as a problem as there was no mine identification sign posted. Corrective actions required you to submit a Succession of Operators Application Packet by the corrective action date.

On February 25th, 2025, the Division received proof that a sign was posted via email. This satisfies the corrective action, and it is considered resolved.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

Todd Jesse
Environmental Protection Specialist
Division of Reclamation, Mining, and Safety

EC: Travis Marshall, Senior EPS, Grand Junction Field Office
