Hi Jason,

Per your request, I am extending all of the corrective action (financial warranty, right of entry, and reclamation plan) deadlines to June 29, 2025. I will wait to calculate the full financial warranty for the site in our review of the required technical revision.

After looking into the Buffalo No 1 mine permit file, we did not find a reclamation plan and map specific to Phase IV of the site. If you found any Phase IV specific items, we'd appreciate it if you could identify the particular document(s) in Laserfiche from the permit file.

Thank you,
Ursula Armstrong
