**Re: Letter of Monitoring Compliance, Annual Groundwater Level Data for 2024-2025;
25th Avenue Site, Permit No. M-2002-020**

Dear Mr. Duve:

On April 30, 2025, the Division of Reclamation, Mining and Safety (Division/DRMS) received your quarterly groundwater level measurements as part of the 2025 annual report, map and fee submission. The Division noted in the groundwater level data submission that 2nd quarter data was not collected. However, a comparison of the 1st and 3rd quarter data shows consistency between the quarters and with historical measurements. The Division has no further comments on the submitted data.

Please note that quarterly monitoring well level data is to be submitted with the annual report each year in accordance with commitments made in AM-1.

If you need additional information or have any questions, please contact me by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
