Mrs. Gibson,

Good morning. May we please extend the corrective action due date for the Mesa DeMaya Pit. The current due date is on 5/9/25, if you could move that out a few more weeks, that would be helpful. We have had a lot of rainfall in that area, and the rainfall is to continue the rest of this week. Getting to the pit can be difficult.

Thank You.

Brian Heguy

Subject: Inspection Report, Mesa DeMaya Pit

Good afternoon,

Attached is a copy of the Division's inspection report for the Mesa DeMaya Pit (M-2014-019) conducted on March 26, 2025.

I have also attached an excel spreadsheet of the coordinates provided in Exhibit A of the permit application that I converted to lat/long. I also attached my KML file of the markers and the permit boundary generated from those points.

Let me know if you have any questions.

Thank you,

Amber Michels Gibson

Environmental Protection Specialist I
