RE: **Adequacy Review No. 1, TR-2, Four X Ranch Gravel Pit; Permit File No. M-2014-033**

Dear Ms. Smith,

On May 1, 2025, the Division of Reclamation, Mining and Safety (Division/DRMS) received your request for Technical Revision No. 2 (TR-2) to allow for the installation of permanent scales within the permit boundary to be used during mining and for the scales to remain after reclamation for use by the landowner's cattle operation at the Four X Ranch Gravel Pit, Permit No. M-2014-033. The following clarifications or items need to be addressed to the Division's satisfaction.

1. Will the scales be used by the cattle company and the mining company at the same time?
2. Please update the Mining Plan Map, that was submitted as part of AM-1 Adequacy Review No. 2 Responses, to show the location of the proposed scales.
3. Please update the Reclamation Plan and Map, also submitted as part of AM-1 Adequacy Review No. 2 Responses, to indicate and show that the scales will remain after completion of reclamation.

This concludes the Division's adequacy review of TR-2. The Division reserves the right to further supplement this document with additional adequacy items and/or details as necessary.

The decision date for your application is set for **May 31, 2025**. If additional time is needed to respond, an extension request must be received by our Office by the decision date. If on the decision date, outstanding adequacy items remain, and no extension request has been received, your revision may be denied and the file terminated.

If you need additional information or have any questions, please contact me by email at patrick.lennberg@state.co.us.

Sincerely,

A handwritten signature in blue ink, appearing to read "Patrick Lennberg". The signature is fluid and cursive, with the first name "Patrick" and the last name "Lennberg" clearly distinguishable.
