

Mined area

This is an aerial photograph of a mining operation. A large rectangular area in the center is outlined with a thick black border and labeled 'Mined area'. This area contains a dark, elongated feature, possibly a road or a trench. To the right of this area, a smaller, irregularly shaped area is circled with a green line and labeled 'Gravel stockpile'. The surrounding terrain is light-colored and textured, likely composed of gravel or sand. In the bottom center, there are two small, dark, rectangular objects, possibly vehicles or structures.
