Hi Ron.

Thank you for notifying the Division about the overflow in the lower seepage collection system below 3 Dam at the Henderson Mill and the steps you've taken to contain the overflow and clean out the seepage collection vaults. This notification is in compliance with Rule 8.2.1 and 8.2.2. As acknowledged during the call, within 5 working days, please submit a follow-up report to the Division in accordance with Rule 8.2.3.

The Division would like to conduct an inspection of the seepage collection area and the tailings line leak that was reported last month. Jared and I will arrive at the site around 9:00 a.m. on Monday, May 12. Please let me know if this time works for you.

Best regards,
