Dear Mr. Smith,

On April 30, 2025, the Division of Reclamation, Mining, and Safety (Division/DRMS) received the corrective action for a problem cited in the March 4, 2025, inspection report. Problem #1 of the inspection report was cited due to fuel leak on site. The photos of the containment and lab results of a soil sample meet the requirements.

The Division considers Problem #1 of the March 4, 2025, inspection report abated.
