**Re: Additional Information Required, Groundwater Monitoring Data 2025,
Windsor East Mine, Permit No. M-2022-042**

Dear Ms. Mikulas:

On May 9, 2025, the Division of Reclamation, Mining and Safety (Division/DRMS) received your Annual Groundwater Monitoring Data for the Windsor East Mine. After review of the submission the Division has additional items that need to be addressed or clarified.

1. As part of Technical Revision no. 1, approved on December 16, 2024, the Operator committed to providing the results of the semiannual groundwater quality sampling and monthly groundwater level monitoring are to be submitted annually along with the annual report, map and fee. Additional information to be submitted each year is:
 - A table of analytical sample results, including duplicate results, compared to appropriate standard.
 - Well location map.
 - Graph of groundwater level data over for previous six (6) quarters to show seasonal variation.
 - A table of groundwater level data for the same period as above.

The submission did not contain all of the information listed above, please provide the missing information.

Please respond to these items within 30 days of the date on this letter, by **June 14, 2025**. The Division reserves the right to further supplement this document with additional items and details as necessary.

If you need additional information or have any questions, please contact me by email at patrick.lennberg@state.co.us.

Sincerely,

A handwritten signature in blue ink, appearing to read "Patrick LG".
