To: DRMS, there has been Zero disturbance by us on our four (Suzie Blue, Sugar Loaf, Silver Microcline and Hill Top), claims, Permit No. P-2015-008.

The activities that have been conducted by Quist Mining include continuing weed mitigation, primarily for mullein, which will continue. Checking posts, signs, trash collection and monitoring for disturbances which are not ours.

We are currently waiting for approval to move 3 acres from our Three- and Four-Point claims to Silver Microcline and Hilltop (which will convert them to M-2023-002).

Thank you! Sincerely, George L. Quist
