RE: King Pit, M1987-012, Outstanding Corrective Action Post Inspection

Mr. Girardi,

Southwest Ready-Mix, Inc. would like to request a 90-day extension to address the outstanding corrective action items of the highwall length and sediment control.

There has been an issue with the earthmoving equipment needed to perform these corrective actions that Southwest Ready-Mix has been working to remedy. Due to this unforeseen circumstance, the date for completion of the corrections cannot be met. Southwest Ready-Mix is working daily to resolve the issue and finish the corrective actions as required.

If anything, further is needed in order to approve this request, please let me know.

Sincerely,

*Jodi Schreiber*
