Ms. Nikie Gagnon  
Division of Reclamation, Mining & Safety  
1313 Sherman St., #215  
Denver, CO 80215

Dear Nikie;

RE: L.G. Everist, Inc.  
Ragsdale Reservoirs, Permit #M-2020-007  
Adequacy Response #1

On behalf of my client L.G. Everist, Inc., I will respond to your May 8, 2025 adequacy review letter in the order and number format presented in that document. We have copied each inquiry into this document for ease of review.

## Other Agency Comments:

1. The Division received comments from Colorado Parks and Wildlife and the Colorado Division of Water Resources. The comment letters are attached for your review. Please acknowledge and address the comments noted in the letters and make changes to the application/exhibits as necessary.

We acknowledge that L.G. Everist, Inc has received, reviewed and responded to the U.S. Army Corps of Engineers, Colorado Parks & Wildlife and the Colorado Department of Water Resources comment letters. Our review comments are attached.

## Notices (Rule 1.6.2):

2. As required by Rule 1.6.2(d) and 1.6.5(2), please submit proof of publication in a newspaper of general circulation in the locality of the proposed mining operation. Proof of publication may consist of either a copy of the last newspaper publication, to include the date published, or a notarized statement from the paper.

Attached is the Proof of Publication.

3. As required by Rule 1.6.2 (e), please submit Proof of Notice to all Owners of Record of the surface and mineral rights of the affected land and the Owners of Record of all land

surface within 200 feet of the boundary of affected land. Proof of Notice may be by submitting return receipts of a certified mailing or by proof of personal service.

All notice letters were mailed Certified & Return Receipt. Attached are copies of the Certified Mail Receipts, the Return Receipts that were returned to L.G. Everist, or a print-out of USPS records showing tracking, or proof of delivery if the USPS failed to return the card.

**Exhibit D - Mining Plan (Rule 6.4.4):**

4. The applicant did not provide a time line for construction of the conveyor; however, the Division acknowledges that L.G. is currently working on obtaining agreements with UPRR and CDOT to obtain the necessary agreements and permits to cross the railroad and highway 85. In accordance with Rule 6.4.4(a), once these agreements are in place, please commit to informing the Division of the time frame for surface disturbance related to installing the conveyor and of any changes to the location of the piers that will be constructed to support the conveyor, as depicted on the mining plan maps. At that time, the Division will review the reclamation bond to ensure that the cost estimate provided for the demolition of the piers is adequate.

L.G. Everist, Inc. will commit to providing copies of the signed crossing agreements and notifying the Division on the timetable for construction of the crossing structures. This will be done prior to construction to allow for time to review the reclamation bond if needed.

**Exhibit E - Reclamation Plan (Rule 6.4.5):**

5. The approved Reclamation Plan and the Bank Armoring Plan (2020) state that the west banks of Phase 1 and Phase 2 will be armored with concrete between 9 to 15 inches, averaging 12 inches, from the surface of the ground to a point 5 feet below the thalweg of the South Platte River. The above water portions will be soiled and revegetated. In the amendment application, the Operator proposes an alternative, to leave a gravel band around the reservoirs between the high-water line and the slurry wall. An access road will be left in place around the reservoirs in the graveled areas. No soil cover or vegetation will be done. Additionally, no soil cover is proposed on the armored areas, but the voids between the recycled concrete will be filled with natural pit run material. The Bank Armoring Plan does not include any geotextile or granular filter under the armoring material to prevent soil from eroding and compromising the integrity of the slope. Please explain why this is excluded and describe how wind and water erosion of the natural pit run (dirty sand and gravel) will be prevented.

We did the Bank Armoring Plan in 2019, so when designing the armoring plan we used the UDFCD (now MHFCD) Technical Review Guideline For Gravel Mining & Water Storage Activities (January 2013), manual armoring design criteria, Section 2.4 Pit Side Bank Protection beginning on page 15, there is no mention of using a geotextile under the armoring since this armoring is intended to only be needed if there is a flood event and not for wave protection. A granular filter is not needed since the banks of the

reservoirs are natural gravel that serves as a granular underlayment which allows the slopes to drain as the water level in the reservoir raises and lowers. The armoring material is also large enough that it is not prone to wind erosion. The dirty sand and gravel will be locked into the armoring so it will stay in place. There may be an insignificant amount of erosion on the surface since you can't prevent all erosion as it is a natural occurrence. The guidelines are intended to minimize erosion and follow the UDFCD guidelines. Periodic grading may need to be done until ready for release to the owners.

Note: The Bank Armoring Plan (page 116) has the incorrect permit number and incorrect operator (page 117) in the header at the top. Please correct this and resubmit.

Thank you for catching this, both pages were corrected and a new version is attached.

6. On Page 24, the applicant requests that the establishment of full revegetation will not be required for permit acreage release if "reasonable assurance" that the development for the approved post mining land use will continue prior to establishing permanent vegetation. This issue was addressed in the original application and the language should be removed from the revised Reclamation Plan. Post mining revegetation will need to be established and largely weed-free prior to the release of an area from the DRMS permit. No "reasonable assurance" exceptions as described in the reclamation plan will be made. Please update the reclamation plan to be consistent with the requirements in Rule 3.1.10.9.

I have corrected this. I forgot when revising the Reclamation Plan that the "Reasonable Assurance" section was removed from the Reclamation Plan in the Adequacy 02 response dated 7/29/2021. I have attached a copy of page 24 showing the area removed and a complete **Exhibit E - Reclamation Plan** to replace the one in the file.

Also, LGE was contacted by KP Kauffman Oil regarding their Iona Unit B-2 well in the SW corner of Stage 5. It is shut in but they do not plan to abandon it anytime soon. I have revised and included **Exhibit C-1 Mining Plan Map, Exhibit F - Reclamation Plan Map-Option A** and **Exhibit F - Reclamation Plan Map-Option B** to show how the area around the well would look if it remains when the area is mined.

#### **Exhibit M - Other Permit and Licenses (Rule 6.4.13):**

7. Please revise Exhibit M to list the other permits that will be required to install the conveyor. Additionally, please update item #2 to indicate the Weld County Use by Special Review permit will need to be revised for the conveyor.

Attached is a revised copy of **Exhibit M - Other Permits and Licenses** as requested. I attached a clean copy and a copy where the revisions are red text for easier review.

**LIST OF ATTACHMENTS TO THIS RESPONSE:**

Responses to Commentors  
Proof of Publication  
Adjoining Owner Return Receipts  
Exhibit E - Reclamation Plan - revised  
Bank Armoring Plan - corrected

Exhibit M - Other Permits and Licenses - revised  
County Clerks Office proof of placement  
Map Exhibit C-1 Mining Plan  
Map Exhibit F-A Reclamation Plan - Option A  
Map Exhibit F-B Reclamation Plan - Option B

I hope these responses have addressed the adequacy questions you have. I have placed a copy of this packet with the Weld County Clerks' office as required. If you have any questions please contact me.

Sincerely,  
Environment, Inc

Stevan L. O'Brian  
President

enclosures

Comment responses follow for the U.S. Army Corps of Engineers, the Division of Water resources, and the Colorado Parks and Wildlife Division comment letters We have responded to them in the order presented in their documents .

### **U.S. Army Corps of Engineers - Anywork letter - Received 02/28/2025**

L.G. Everist, Inc understand the need for a 404 permit if Waters of the US will be impacted. An extensive WOTUS study as done in 2019-2020 for the Ragsdale Reservoirs area and the mining plan was designed to not impact the areas identified as jurisdictional areas. The 26.62 acres being added contain no wetland areas.

### **Colorado Parks and Wildlife - Received 03/03/2025**

I wish to thank the CPW for their comments and suggestions. L.G. Everist, Inc. has been operating this site since 2020 with little disruption of wildlife in the surrounding areas. The area has been intensively farmed for many years and is divided by a major highway and Railroad line so it is not virgin wildlife habitat.

#### **The Importance Of High Priority Habitats**

The deer habitat shown on the CPW exhibit lay along the South Platte River corridor and except for a very thin section east of the river corridor it will not be impacted by the mining operations. In 2020 they purposely avoided mining within 100 feet of the levee running along the east bank of the river to protect that corridor. Construction of the slurry walls and french drain (aka under-drain) were completed last summer outside the winter period. The french drain crosses a section of the corridor area and a review of the construction areas shows numerous deer trails crossing the area indicating it did not disrupt deer use. The deer utilize the mining areas after-hours when no mining is taking place as it is a safe area where they are not disturbed.

#### **Bald Eagle Active Nest Site**

This was discussed by LGE's consultants Savage & Savage with Ms. Kristin Salamack of the U.S. Fish and Wildlife Service in July 2020. She determined that the appropriate seasonal disturbance setback from the eagles nest was 660 feet during the

**Noxious Weeds and Native Re-seeding**

L.G. Everist, Inc. has a weed control plan that is activity followed on the disturbed areas with spraying taking place as needed. The grass seed mixture currently used on areas needing revegetation contain native species to the area and was designed with the help of the Brighton Office of the NRCS for use on mining operations in their region.

**Lighting**

The only areas that are lit after dark are in the immediate area of the Plant site and equipment storage areas along HWY 85 for safety and security purposes. The lights meet the Federal Health and Safety requirements of the U.S. Mine Safety and Health Administration (MSHA).

**Division of Water Resources - received 04/04/2025**

L.G. Everist, Inc. understands the Division requirements for a gravel mine's use of water. They maintain, update and renew their Substitute Water Supply Plan as required and provide replacement water for losses associated with dewatering, gravel production, dust control and surface evaporation.

A french drain has been installed between Reservoir #1 and Reservoir #2 to alleviate mounding on the east side of the reservoirs and return the ground water to the rivers system in a timely manner.

The new areas added will not be mined or expose groundwater. Their the primary uses are to allow for more surface operating area and buffers around the west reservoirs, and as a transportation corridor for a propose conveyor from the eastern Phases to the Plant Site in Phase 3.

January 1 to August 31 nesting period. In 2020 or 2021 the original nest was destroyed by natural events and a new nest was recently rebuilt approximately 270 feet farther north. This removed all but a very small section of Phase 2 from the required setback. We thank the CPW for their recommendations but a half mile (2640 ft) or a Quarter mile (1320 ft), would put much of the Western mining areas off limits. We will follow the USFWS recommendations of no mining activities within 660 feet (1/8 mile) of the new nest during January 1 to August 31. The area covered by the 660 ft restricted area is shown on **Map Exhibit C-1 - Mining Plan**. The new nest was built during construction of the slurry wall and stripping operations and it did not appear to disrupt the eagles.

As for the winter roost areas. The mine is only active in the winter months during daylight hours Monday thru Friday. Much of the area shown in their circle was farmland that had few trees suitable, as CPW described for roosting and those have not been disturbed nor will be by mining.

#### **Raptors and Migratory Birds**

The U.S. Fish and Wildlife Service was consulted during the original permitting process in 2020, so it is not a new operation. The original site investigations indicated there were no Raptor nests in the immediate vicinity of the permit area, except the eagle nest near the NW corner of Stage 2. A commitment was made in 2020 to review the area to be mined annually for raptor nests and precautions would be taken to not destroy or disrupt their use in late spring and early summer. The mine has been in operation now for almost 3 years and no nests have been found in or around the mining areas. We have no control if nests are build next to the processing plant which operates year around.

#### **Fencing**

The owners of the land are responsible for fencing their property. L.G. Everist, Inc. does not fence the mine perimeter but used dirt berms to limit unauthorized entry or visual impacts from outside the mine area. The land owners use 3 strand wire fence to keep livestock from leaving their property where needed.

Re: L.G. Everist, Inc. - Adequacy Response - 01 Packet  
Ragsdale Reservoirs M-2020-007

Dear Sir/Madam:

We are delivering to you here with a copy of the Adequacy response and supporting exhibits for L.G. Everist, Inc's, - Ragsdale Reservoirs mine amendment application filed with you on February 12, 2025. Please place this packet with the original book. The original of this item is on file with the Division of Reclamation, Mining & Safety.

This copy of the permit application adequacy response is delivered to you pursuant to 34-32.5-112(9)(a), Colorado Revised Statutes 1995, as amended, which states in part:

**.... the applicant shall place a copy of such application for public inspection at the office of the Board and Office of the County Clerk and Recorder of the County in which the affected land is located.**

This packet must be kept with the book for public review until the application has been approved by the Division.

Please acknowledge receipt of the copy of the permit adequacy response by date stamping this cover or signing in the appropriate space provided below and returning one copy of this letter to Environment, Inc at environment-inc@startmail.com.

Yours truly,  
ENVIRONMENT, INC.

### PUBLIC NOTICE

#### PUBLISHED NOTICE OF APPLICATION AMENDMENT FILING FOR A REGULAR (112) CONSTRUCTION MATERIALS RECLAMATION PERMIT

L.G. Everist, Incorporated has filed an application amendment to their Reclamation Permit with the Colorado Mined Land Reclamation Board under the provisions of the Colorado Mined Land Reclamation Act for the extraction of construction materials. The mine is known as the Ragsdale Reservoirs (permit # M-2020-007) and is located in parts of Sections 7, 8, 17, 18, and 19, all within Township 2 North, Range 66 West, 6th Principal Meridian, Weld County, Colorado.

The date of commencement for this mine was 2022 and the proposed date of completion December 2050. The proposed future use of the land is as developed water storage.

Additional information and the tentative decision date may be obtained from the Division of Reclamation, Mining & Safety, 1313 Sherman St., Suite 215, Denver, CO 80203 (303) 866-3567, or at the Weld County Clerk to the Board's office, 1150 O St., Greeley, Colorado 80632, or the above named applicant.

Comments must be in writing and must be received by the Division of Reclamation Mining and Safety by 4:00 p.m. on April 23, 2025.

Please note that comments related to noise, truck traffic, hours of operation, visual impacts, effects on property values and other social or economic concerns are issues not subject to this Office's jurisdiction. These subjects and similar ones are typically addressed by your local governments, rather than the Division of Reclamation, Mining & Safety or the Mined Land Reclamation Board.
