Notes:

- Oil/gas well, gas line and facility and access corridors may change from what is show on this map if required by amended oil & gas agreements or abandonment of said facilities.
- Reservoir development and configuration may change if Option B is excersized and the necessary Technical Revisions are filed and approved.
- Main access to mine is located on WCR 20 west of HWY 85 this may change to the eastern access located on WCR 22.
- The 4 settling pond/overburden disposal Phases may be reclaimed by back filling and revegetated as crop land. If there is not enough fill material, some of the Phases may be filled to at least 2 feet above the ground water table before reclaiming.
- All structures within the mining area owned by Cannon Land Company will be removed as allowed in the lease agreement L.G. Everist Inc. has with Cannon Land Company.
- Sight Berms built along the Highway 85 corridor will be built using overburden and resoiold and vegetated. These berms will remain when reclamation is complete.
