WEED MANAGEMENT PLAN

Noxious Weeds Present	Control Measures : Reference " <u>Guideline for Weed Management Plans</u> " booklet
(List B) Russian knapweed	Russian knapweed and cpmmon mullein located on bordering areas of gravel
(List C) Common Mullein	pit. Any materials or equipment used in the infested
	area or moved out of the area should be monitored for knapweed.
	Equipment should be cleaned in and out this site.
Notes / Other Required Action	Annual monitoring and application will be required for control. Early summer is
	an apporariate time to reduce seed production.
