Hunter, sorry for this late response to your request. In consulting with Outlaw Environmental weed management, we will be most effective in the spring spraying the Russian olive trees here. We have moved equipment to the pit site and are working on reclamation in which we are digging up any Russian olives we can reach with excavators. Enclosed please find pictures of the operation and we will be spraying as soon as leaves emerge in the spring. Please call with any questions.

Steve Baker

Thank you, Steve. The update and photographs are much appreciated. I will put a tab on this and check back in on progress next spring-around April/May. Once the spraying has been done, if you can submit receipts for the spraying that will officially close out the inspection problem citation.

Best,  
Hunter Ridley (she/her/hers)
