RE: M1981044 Solberg Gravel, TR02 Mine Plan Change, Adequacy Response #1

Ms. Ridley,

Holcim is in receipt of your adequacy review for TR02 dated May 30, 2025. Holcim confirms that topsoil management from this area will continue to follow current onsite practices of removal, segregating, and storing in designated topsoil piles. The top soil storage locations currently identified on the mine plan map will be adequate for additional topsoil storage as necessary.

Please let me know if you have any additional questions during your review.

Thank you,
