Good afternoon Amber,

Per your conversation with Austin today over the phone, a couple of items were discussed and clarified.

The east topsoil pile to be used for reclamation will be seeded in a timely manner. The topsoil material in photo # 10 was foreign material off of a project that was hauled in and is strictly to be used for resale, not to do with any reclamation practices for the gravel pit.

We appreciate your cooperation and help with this and any further questions or concerns, please feel free to contact us at any time.

Have a great day!
