

1. DRMS online form lists permit acreage as 22.60 Ac.
2. Actual permit acreage as approved in revision (AM-02) is now 56.4 acres, and prior to AM-02, was 29.4 acres. This problem has been noted multiple times.
3. Southern Area in various stages of reclamation: areas listed as "soil replaced" and "seeded" include areas of permanent ponds (13.4 acres).

Requesting clarification of water rights for pond surface evaporation and of requirements for floodplain protection.
