Good Afternoon Scott,

Thank you for sending over the affidavit of publication this morning. I've entered it into the record. Some outstanding issues addressed in the attached adequacy.

- Acreage discrepancy remains outstanding.
- Notice to landowners of the extension area remains outstanding. There is a comment period associated with notice. The following need to be notified and there may be others:

SUMMIT ENGINEERING CO

1. WSQ Solar
2. Quinlan, Wane and Sue
3. Cumbers and Toltec Railroad
4. Mountain Tower and Land
5. Robbins, Daniel and Renee
6. Valdez, Demetrian and Olive

- The entity seems to have changed between the original application in June of 2024 and the completeness response. This is problematic.

Please find DRMS's second round of adequacy in response to your 27 May submittal. Also, please request an extension so we can get these items worked out.

Thank you
