RE: Permit No. M-1980-244; Cripple Creek & Victor Gold Mining Company ("CC&V"); Cresson Project – Notification of Water Quality Analysis June 26, 2025

Dear Dan,

The Cripple Creek and Victor Gold Mining Company (CC&V) hereby provides the Division of Reclamation, Mining, and Safety (Division) with a formal notification of water quality analytical results for wells CRMW-3A and CRMW-3C. As per the Stipulated Agreement with DRMS dated April 25, 2024, CC&V is in the process of establishing appropriate site-specific groundwater standards with the Water Quality Control Division and Water Quality Control Commission. However, notwithstanding this uncertainty, CC&V is providing this notice within the time allowed by Rule 3, Section 3.1.7 (9) of the Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for Hard Rock, Metal, and Designated Mining Operations.

CC&V collected Q2 2025 groundwater compliance samples from monitoring wells CRMW-3A and CRMW-3C on June 11, 2025.

Upon review of the analytical reports received, CC&V determined that fluoride and sulfate were greater than the table value standards and the previously set Numeric Protection Limits (NPLs) in CRMW-3A and CRMW-3C. Analyte concentrations over time are included as Attachment 1.

Table 1 below lists results compared to the previously set NPLs and Table Value Standard.

Table 1: Parameter Values

Location	Sample Date	Parameter	Value (mg/L)	NPL (mg/L)	Table Value Standard (mg/L)
CRMW-3A	6/11/2025	Fluoride	3.04	2	2
CRMW-3A	6/11/2025	Sulfate	667		250
CRMW-3C	6/11/2025	Fluoride	2.63	2	2
CRMW-3C	6/11/2025	Sulfate	663		250

If you have questions, please contact Josh Adams at (719) 323-0438 or Joshua.Adams@ccvmining.com, or myself at (719) 851-4048 or Katie.Blake@ccvmining.com

Sincerely,

DocuSigned by:
