RE: Donley Rock Quarry, Permit No. M-2011-005 , Succession of Operator (SO-01) Application Adequacy Review (03)

Mr. Wallace:

The Division of Reclamation, Mining and Safety (Division) is in the process of reviewing the above referenced application in order to ensure that it adequately satisfies the requirements of the Colorado Land Reclamation Act for the Extraction of Construction Materials (Act) and the associated Mineral Rules and Regulations of the Colorado Mined Land Reclamation Board for the Extraction of Construction Materials (Rules). During review of the material submitted, the Division determined that the following issue(s) of concern shall be adequately addressed before the application can be considered for approval.

1. The submitted Succession of Operators application page 9 contains an error in the notary portion for Scott Majares' signature. "White Out" cannot be used on notarized documents. Please submit a new page 9 signed by Scott Majares and notarized. We can accept counterpart signatures, so Jerad David does not need to resign.

Please submit your response(s) to the above listed issue(s) by Friday, July 18, 2025 in order to allow the Division sufficient time for review.

The Division will continue to review your application and will contact you if additional information is needed.

If you require additional information, or have questions or concerns, please contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read 'Dustin Czapla', with a long horizontal flourish extending to the right.
