Hey there Scott,

I have attached the tech sheets for 3 stock options that would probably work well for you. I would recommend the foothills mix as the number one choice though.

Pricing starts at (can get better based on volume needed):

Foothills- \$4.70/ LB

Low Grow- \$3.25/LB

Rocky Mountain Native- \$6.60/LB

I also made a quick custom mix for this project is a little bit more warm season heavy :

Western Wheatgrass 30%

Streambank Wheatgrass 25%

Blue Grama 20%

Sideoats Grama 15%

Indian Ricegrass 10%

Seed at about 22 lbs per acre. (12.89/LB #)

Let me know what you think!

Thanks, Josh
