RE: Burton Pit, Permit M-1987-013, Incomplete Application for Transfer of Mineral Permit and Succession of Operators, Revision SO-01

Dear Ms. Schreiber:

On July 3, 2020 the Division of Reclamation, Mining and Safety received the Application Form for Transfer of Mineral Permit and Succession of Operators from Southway Construction Company, Inc to Rio Grande Canal Water Users' Association for the Burton Pit, Permit M-1987-013. The following items are incomplete for the application to be processed:

Application Form

1. The registered name for the Prospective Successor is "Rio Grande Canal Water Users' Association". All references to the Prospective Successor must use that full name. Please submit a new page 9 and 10 of the SO application. Counterpart signatures are acceptable so there's no need for Southway to resign.
2. The notary used the name "Jay Edward Yeager" rather than "Jay Yeager" or "Jay E. Yeager" as he signed. Please be sure the signature names and notary names match exactly.
3. The Permittee name on the SO application should be Southway Construction Company, Inc. rather than PFM consulting Company. All references to the Permittee should be "Southway Construction Company, Inc." Please submit a revised page 1 of the SO application

Performance Warranty

4. Please submit a new Performance Warranty with the Prospective Successor's name fully written out.

Please return the required documentation to the Division **before September 8, 2025**. All completed permit documents are required to be submitted for consideration of your Request for

Transfer of Mineral Permit and Succession of Operators Application. An incomplete application may be denied after the 60 day submittal request, if requested documents or information are not received. In the event of any delay in your submittal or if you have any questions, please contact the Division.

Sincerely,

A handwritten signature in blue ink that reads "Todd Jesse".
