**RE: Mid-Continent-LST, Permit No. M-1982-121, Technical Revision TR-9 Submission Date
Extension Request Approval-3**

Dear Mr. Wagner:

On July 11, 2025 the Division of Reclamation Mining and Safety (Division) received your extension request for the decision due date of TR-9. The Division received the adequacy response for TR-9 on July 9, 2025. The Division needs time to review the submitted materials and is therefore approving the extension request. The current decision date for TR-9 has been set for August 8, 2025. If additional adequacy items are identified another extension will need to be requested to allow for the response(s) to be reviewed. A non-confidential response shall also be submitted prior to the Division issuing a decision.

If you require additional information, or have questions or concerns, please feel free to contact me.

Sincerely,

Amy Yeldell
Environmental Protection Specialist
