Nikie,

Per State requirements, I wanted to let you know that we are experiencing an ongoing flood event after last night's storms. Flooding started this morning at approximately 4-5 AM and is ongoing, though the water seems to be receding some. No hazards to life, property or the environment are expected on our portion of the creek and the Weld County Road maintainer has been notified.

Included are some pictures of the flood, taken at approximately 9:30 this morning.

If you have any questions or concerns, please do not hesitate to call.

Sincerely,

Kurt Arnusch
