**Re: Division Comment, Second Quarter 2025 Groundwater and Surface Water Monitoring Report;
Cash & Who Do Mines, Permit No. M-1983-141**

Dear Mr. Langenfeld,

On July 17, 2025, the Division of Reclamation, Mining and Safety (Division/DRMS) received the Second Quarter 2025 Groundwater and Surface Water Monitoring Report for the Cash & Who Do Mines. After review of the submission the Division has the following comment.

On July 8, 2025, the Division approved TR-9 which temporarily updated the surface water and groundwater sampling requirements at the site to be consistent with what has been sampled historically while the Operator is in litigation with Boulder County. Activity at the site cannot begin until the litigation is resolved. Once resolved, water sampling will resume according to the approved sampling plan detailed in TR-5.

If you have any questions or need further information, please contact by email at patrick.lennberg@state.co.us.

Sincerely,

Patrick Lennberg
Environmental Protection Specialist
