**RE: Minor Revision #191 – Modification of access road and drill location for previously approved 2025 CH-3 drill hole.**

Dear Clayton,

Enclosed is a minor revision (MR-191) requesting the proposed relocation of the access road and drill hole previously approved through MR-189, labeled 2025 CH-3.

Total disturbance for the new location is slightly less than the previously approved location. A new page II.F-18A (Threatened and Endangered Species) has been provided in addition to a revised Map 147. A new Table V-3 (Summary of Disturbed Areas) is not being submitted at this time as the existing approved location covers the entirety of the disturbance proposed for the new location.

If you have any further questions, please contact me at 970-675-4322.

Sincerely,

Kurtis Blunt  
Senior Environmental Engineer
