Good afternoon Kurt,

The Division has completed reviewing the application for Minor Revision No. 191. There were no adequacy comments or questions from the application. Please see the Division's letter attached with this email for more details. Please feel free to contact me if you have any questions or concerns.

Sincerely,

Clayton Wein

RE: Deserado Mine, C-1981-018
Minor Revision No. 191 Preliminary Adequacy Review

Dear Mr. Blunt,

The Colorado Division of Reclamation, Mining and Safety (the Division) received the Deserado Mine's submittal of Minor Revision No. 191 (MR-191) on July 28, 2025. The revision was deemed complete on July 28, 2025. The Division has completed its preliminary adequacy review of the application and has no adequacy concerns. The disturbance for the CH-3 drill hole and access road were already approved under Minor Revision No. 189. The new proposed location will not increase the previously approved amount of disturbance. The Cultural Resource Survey provided with the application package applies to the new proposed location. No impacts to cultural resources will occur under the activities proposed with MR-191.

This concludes the Division's adequacy review of Minor Revision No. 191. If you have any questions or concerns, please feel free to contact me at (720)-762-6156 or by email at clayton.wein@state.co.us.

Sincerely,

Clayton Wein
Environmental Protection Specialist
