Thanks, Nikie. In ordinary circumstances we might try to redirect and have someone else respond to the substantive comments sooner than later. We may still do that, but there is a lot going on. For the benefit of everyone, please extend the decision date for TR-4 by 30 days.

Alex

Hi Alex.

I just sent the attached adequacy letter for the Nix Pit TR4 to Steve and received a notification that he is out of the office until August 12. The decision date for this revision is August 9. Do you want to send me an extension request to push the decision date out 30 days to allow time for Steve to review and respond to my questions when he returns?

Feel free to call me on Monday to discuss this or you can just send me an email request to extend the decision date.

Kind regards,

Nikie Gagnon

Hi Steve.

Please see the attached adequacy letter for the Nix Technical Revision 4. I had a few fairly minor changes/questions I'd like you to address before I can approve the revision. The Division appreciates the thoughtful analysis you provided for the baseline data.

Let me know if you have any questions or if you need an extension to allow time to submit your response before the August 9 decision date.

Have a nice weekend.
