Bob,

If you let us know you want the \$2,108 check applied to the bond, we just need a check for the \$108 fee. That will be the simplest solution I think.

Once we are able to assign this NOI a file number and a specialist is assigned to review the app, they will notify you of any completeness issues with the app itself. You will then have an opportunity to send a revised app, which is when you can correct the phone #.

After reviewing your proposed plans, the specialist will calculate the full required financial warranty for the site. At that time, you can send a separate check for the additional required FW or a replacement check for the full amount. You'll work with our bonding specialist, Sara Stevenson-Benn on that part.

Best Regards,

Amy Eschberger
