Surety Increase (SI-2)
Surety Increase

Dear Doug Sparks:

On August 20, 2025 the Division of Reclamation, Mining and Safety increased the current Financial Warranty for this permit to \$117,688.00, in accordance with Rule 4.2.1 of the Rules and Regulations. This is an increase of \$26,088.00.

Post inspection Surety Increase to account for inflation. Bond adjustment after SO-1.

Please see the July 9, 2025 inspection report for details regarding why this surety increase is required.

On August 20, 2025, the Division ordered amendment of the current Financial Warranty or submittal of a new Financial Warranty reflecting the increase, within 60 days.

Please make arrangements with Sara M. Stevenson-Benn at the Division's Denver office for submittal of the financial warranty. Any other questions regarding completion, execution and/or submittal of financial warranty forms should also be directed to Sara M. Stevenson-Benn by telephone at (303) 866-3567, or by email at Sara.stevenson-benn@state.co.us.

The Permittee for this site may be scheduled for a Formal Board Hearing for possible revocation of the permit if the amount of any increased Financial Warranty has not been provided by October 19, 2025.

Bond Held:	\$91,600.00
Prior Liability:	\$91,600.00
Change in Liability:	\$26,088.00
Revised Liability:	\$117,688.00

Prior Permit Acreage:	30.48
Change in Permit Acreage:	0.00
Revised Permit Acreage:	30.48
Prior Affected Acreage:	30.48
Change in Affected Acreage:	0.00
Revised Affected Acreage:	30.48

If you have any questions, please contact me by telephone at (970) 210-1272, or by email at Amy.yeldell@state.co.us.

Sincerely,

Amy C. Yeldell

RE: Urie Gravel Pit, Permit No. M-2009-038, Proposed Surety Increase (SI-2)

Dear Mr. Sparks:

This reclamation cost update was in response to the site inspection conducted on July 9, 2025. As well as the Succession of Operator (SO-1) permit transfer which was approved on June 12, 2025. It is Division policy to periodically update its costs to ensure that the Financial Warranty adequately reflects the actual current cost of fulfilling the requirements of the approved reclamation plan.

The bond was last recalculated in 2023. Below is a table summarizing input values that have been updated based on site conditions. **Changes are noted in red.** This table does not account for price changes resulting from inflation or other RS Means cost changes. Bond calculations are based on a combination of field observations and worst-case scenario based on the approved reclamation plan.

Assumptions: Revision in Red

- Phase 1 is graded and initially reclaimed.
- Phase 2 is completely graded. Some slopes have topsoil applied. No seeding has occurred.
- Phase 3 the active pit. Only the far west slope adjacent to highwall requires grading. All slopes still need topsoil. No seeding has occurred to date in Phase 3.
- All areas are to receive 6" of topsoil prior to reveg
 - No topsoil was stripped from Phase 3 prior to use for stockpile. Topsoil is only available for contoured slopes.
- Did not include pumping dewatering task
- Phase 3 - all areas used for stockpiling require decompaction.
- Assumed enough overburden material has been placed or maintained over shale. Rec Plan calls for a min of 54" site wide to be replaced.
- Revegetation per Reclamation Plan calls for disk soil, seed mix drilled, straw mulch at 3000 lbs. /ac power mulched and crimped into place. Added weed spraying based on site conditions.
- Scale is mobile, no demo required

Task	Form Used	Description
01a	Dozer	Grade Pit slopes to 3H: 1V = 2,769 CCY 500 LF of Vert @ 20' cut/fill = 2,769 CY
02a	Loader	Transport topsoil to pit slopes (phase 2 and 3) = 1,855 CCY Slopes are 1000LF x 100'W = 2.3 ac @ 6"D
02b	Dozer	Grade transported topsoil on pit slopes = 2,254 LCY
03a	Ripper	Rip stockpile area (Phase 3) ~8 ac Need to deep compact 2ft since no topsoil will be applied
04a	Reveg	Reveg = 14.2 ac Phase 2- slopes 1700 LF x 100'W = 3.9ac Phase 3 – slopes 1000LF x 100'W = 2.3 ac Phase 3 Stockpile area 8 ac
04b	Reveg	Reveg Failure areas (phase 1) 50% of total = 2.52 ac 2200 LF x 100'W = 5.05 ac
10a	Mob	Initial Mobilization
10b	Mob	Secondary Mobilization

Per policy I wanted to send this out for review prior to issuance. Please look it over and let me know if there are errors or concerns. As noted you may also wish to revise your reclamation plan. If no response is received by **Friday, August 15, 2025** then I'll issue SI-2 the following Monday as is. SI-2 will result in a total required bond amount of **\$117,687**, which is an increase of \$26,087 over the \$91,600 currently held.

Please feel free to contact me with any further questions. Amy Yeldell at the Division of Reclamation, Mining and Safety, Rm 215, 1001 E 62nd Ave, Denver CO 80216. Direct contact can be made by phone at 970-210-1272 or via email at amy.yeldell@ state.co.us

Sincerely,

Amy Yeldell
