RE: Technical Revision M 1996-082, Blair Mesa – Revision to leave stockpiles.

Dear Amy,

We are requesting a technical revision for the Blair Mesa Pit (M-1996-082). This proposed revision includes a modification to the approved reclamation plan to leave existing stockpiles onsite for owners use after the site has been released. This change is being initiated to maintain compliance and ability to seek release at the site. The remaining stockpiles on site are as follows:

2069 Cubic Yards of Crushed Fines.
100 Cubic Yards of Pit Run Material.

Please see attached map for locations.

Attached is a check for the Technical Revision fee for Permit No. M-1996-082. If you have any questions or concerns regarding this request, do not hesitate to contact me. Sincerely,

Jason Burkey
