Technical Revision (TR-2)
Preliminary Adequacy Review

Dear Sara Weimer:

On August 19, 2025, the Division of Reclamation, Mining and Safety (“Division” or “DRMS”) received the Technical Revision (TR-2) application for the Mask Ranch Pit #2, permit number M-2018-015. Based on review of the material submitted, the Division has identified the following item must be addressed before the TR-2 application can be approved. Please submit a cover letter responding to the item listed below.

1. Please commit to submitting annual reporting of the results of the Integrated Weed Control and Management Plan.

Please note the Division is required to issue a decision regarding the TR-2 application by **September 18, 2025**. If you cannot address the above issue before the decision date, please request an extension of the decision date to ensure adequate time for the Division to review material. If any adequacy issues remain by the decision date, the Division may deny your request.

If you have any questions, please contact me by email at chris.girardi@state.co.us.

Sincerely,

Chris Girardi
