To: Graham Roberts <graham.roberts@trappermine.com>, Robin Reilley - DNR <robin.reilley@state.co.us>

Good Afternoon Graham,

Please find DRMS's review of the Trapper aDMRS for January and April of 2025. Thank you for your timely submission of the reports. The Division has no concerns.

Thank you

Robin Reilley, M.S. GISP
Environmental Protection Specialist II

Re: Trapper Mine (Permit No. C1981010)
Review of DMR's 2025 January

Dear Mr. Roberts:

The Division has received and reviewed the 2025 January Discharge Monitoring Reports (DMRs), including the acute monthly WET testing results for the Trapper Mine. The DMRs were received electronically by the Division on 24 February 2025. Thank you for your timely submittal of this information. Trapper submits DMRs to the Division, in accordance with Rule 4.05.13(2)(a)(iii).

Trapper reported that the following outfalls discharged during the month:

- Johnson #10 NPDES 001
- No Name Pond #5 NPDES 002
- East Pyeatt #2 NPDES 011

Trapper reported that none of the outfalls requiring acute or chronic WET testing discharged. DMRs for discharging outfalls indicated no exceedences of paramaters. The Division does not have any questions, concerns, or further comments at this time. If you have any questions or need additional information, please contact me.

Sincerely,

Robin Reilley, M.S. GISP

Re: Trapper Mine (Permit No. C1981010)
Review of DMR's 2025 April

Dear Mr. Roberts:

The Division has received and reviewed the 2025 April Discharge Monitoring Reports (DMRs), including the acute monthly WET testing results for the Trapper Mine. The DMRs were received electronically by the Division on 29 May 2025. Thank you for your timely submittal of this information. Trapper submits DMRs to the Division, in accordance with Rule 4.05.13(2)(a)(iii).

Trapper reported that the following outfalls discharged during the month:

- Johnson #10 NPDES 001
- No Name Pond #5 NPDES 002
- East Pyeatt #2 NPDES 011
- Middle Flume NPDES 020
- East Middle Flume NPDES 021

Trapper reported that none of the outfalls requiring acute or chronic WET testing discharged. DMRs for discharging outfalls indicated no exceedences of paramaters. The Division does not have any questions, concerns, or further comments at this time. If you have any questions or need additional information, please contact me.

Sincerely,

Robin Reilley, M.S. GISP
