Hi Chris,

I'm gearing up to approve the surety reduction (SR-1) for the 4406 Alaska, LLC Pit #1. The good news is that the bond for the site can be significantly reduced. Accounting for the earthwork that has been completed and also the fact that the current disturbance is much less than what was initially bonded for, I was able to reduce the required bond from \$59,000 to \$17,198.

Please see the cost estimate attached to this email. If you have any questions or comments on it, please let me know. If you have no further comments, I can move forward with approving the surety reduction and initiate the 30-day appeal period before the reduction is finalized.

Best,

Joel Renfro

Great, thanks for confirming this Chris! Apologies for my delayed response, we had the long weekend and I was out sick yesterday. I will issue the Surety Reduction by the end of the day today.

Best,

Joel
