**RE: MCKENNA LIMESTONE QUARRY, PERMIT NO. M-2000-039, MAY 20, 2025
INSPECTION REPORT, CORRECTIVE ACTIONS – ABATEMENT NOTICE**

Dear Mr. Hurworth,

On September 4, 2025, the Division of Reclamation, Mining and Safety (Division/DRMS) received your text messages providing evidence that the affected land markers have been replaced and/or identified. Per our phone conversation, the rebar markers in the photos are the original surveyed permit boundary markers. For the ones unable to be located, cairns were constructed and spray-painted yellow. The Division considers this inspection problem: **abated**.

If you have any questions, please send me an email at amber.gibson@state.co.us or call me at 720-836-067.

Sincerely,

Amber M. Gibson
Environmental Protection Specialist, DRMS

CC: Jared Ebert, Senior EPS, DRMS
