Weber Pit #2 M-195-056

Our lease for the gravel pit was extended for another year (2025) to finish our reclamation. No mining was done this year for the owners and we are completely finished with mining. We only re-processed material that was mined and crushed into 4 inch minus gravel last year (2024). We are in full reclamation mode. The crusher will be removed from the Pit Area sometime during the week of September 14. We are just waiting on the truck to move it. As soon as the equipment and stock piled material is removed from Phase 3, the Purple area, reclamation will begin there.

Map Legend for Weber Pit #2 Phases 1&2

September 14, 2025

Approximately 18 acres of unaffected land. (Green)

Approximately 17 acres previously used as a processing area in Phase 1&2 are in the process of reclamation. (Orange)
