Hello,

I would like to ask for an extension for the SL-2 inspection problem #1 corrective action as well as the weed corrective action deadline from August 29, 2025 to October 29, 2025 for the Bijou Clay Mine M-1997-007.

I have been instructed to get competing quotes for the work in addition to H2 to get the property weeded and flown for the main corrective action work (slopes and outfall stabilization).

Thank you,

Richard Murphy
