Hi Nikie,

Courtesy communication – we have made fantastic progress reclaiming Lupton Meadows. We are approximately 80% complete and will be seeding in October.

Below is a picture of the southwest pit from March 20, 2025 when you did a site inspection. Your inspection report showed pictures.

Below is a picture from two days ago September 24, 2025 from a similar vantage point of SW pit as picture above.

The two pits on the east side of county road have been re-addressed, and we are working on the NW pit at the moment.
