Chris, My husband has a doctor's appt. in Durango on Oct. 2. Could we do it on Friday instead?

I was going to email you and let you know ahead of our meeting, that Pagosa Area Water & Sanitation want's us completely out of the Pit by the end of November. We have been working on reclamation and trying to get rid of the crushed gravel still remaining at the Pit so we can do our reclamation. We have not done any weed treatments this year because everything is going to be disturbed before we are through moving dirt. We planned to do a thorough weed spraying after the seeding was finished and there would be no more disturbance to the ground.

Thanks,

Kathy Weber

Subject: Re: DRMS Inspection October 8th

Good morning Kathy,

On Friday, September 26th, the Division received a confidential complaint regarding the Weber No2 Pit. The Colorado Mined Land Reclamation Board Policy dictates that the Division conducts an inspection within 5 working days. You and I had discussed October 8th as an inspection date for both the Weber No2 Pit and the Martinez permit, however I will be required to conduct an inspection on or before this Friday. Would you be available on Thursday, October 2nd at 1pm to convene at the Weber No2 Pit?

Sincerely,

Chris Girardi

Environmental Protection Specialist
