Hi Michael,

I appreciate you reaching out. You can narrow the documents down in Laserfiche to just look at the bond release application materials. In Laserfiche, if you search the C1982057 documents, also type in "SL8" in the "Type & Sequence" field and the results will only show the documents that pertain to the bond release application in question. Below is a screen shot, one of the red arrows points to where you can put "SL8" into the search fields. The other red arrow shows where you can click to order the documents for oldest to newest. Attached is a copy of the original bond release application submitted by Seneca Property LLC, and also attached is the Division's Findings of Compliance document that summarizes the SL8 application and our rationale for approval of the application.

Please let me know if you have any questions.

Jared

Hello Jared,

Routt County received the attached letter. I went into the document search for C1982057 and it pulled up 302 pages of documents, with 20 documents per page, so I am not sure what you'd like us to look at. Do you have a map of the area subject to this letter? Has the state concluded that all reclamation was successful, with no further work needed?

Thank you,

Michael Fitz
